

FOCUS: THE FASHION OF SPEED

This series reimagines F1 athletes as modern cultural icons, merging the language of fashion editorials with the adrenaline of racing. Through clean layouts and editorial-style photography, each card reflects a driver’s personality.

FOCUS: FACES BEHIND THE VISOR

In contrast to the lifestyle tone above, this series dives into the psychological focus of drivers in their element. By treating the helmet as both armor and identity, the cards highlight the emotional gravity of competition—capturing the raw human presence behind the visor.
